

Community Leader's Letter to Congress

Organization/Individual Endorsing Action on Climate Change

WHEREAS...

The costs of climate change—including destabilized weather patterns, rising sea levels, extreme weather events, and other serious impacts - now pose a substantial threat to the health, prosperity, and security of Americans. The costs are real, they are growing, and they are already burdening businesses, taxpayers, municipal budgets, and families.

Our economy, infrastructure, public safety, and health are directly at risk.

Prudent action now will be far less costly than the consequences of delayed response and will create a more stable business environment for our nation.

THEREFORE...

I/we urge Congress to sponsor and/or support measures that will:

- Acknowledge the serious threat posed by climate change
- Reduce greenhouse gas emissions in a clear, transparent, and effective way
